SOLAR POWER MADE AESTHETIC

**CARPORT SOLAR SOLID** is a solar canopy allowing solitary placement or mounting on the wall of the house. The elegant design ensures long life span and weather resistance, making it an ideal parking space. It is also a favourable combination of functionality and price, together with aesthetics and sustainability.

**VARIABLE SYSTEM FOR THE USE OF FRAMED PANELS FROM DIFFERENT MANUFACTURERS WITH DIFFERENT SIZING OF PV PANELS**

## WHY CHOOSE CARPORT SOLAR SOLID?

- Premium quality with affordable prices
- Modern, stable shelter with PV (2in1)
- Superior quality
- High efficiency
- Maintenance-free and long life span
- Framed PV panels
- 6-15 PV panels = energy to travel 18.000-50.000 km per year by electric car
- Average EU household consumption = 4 MW/year
- Expansion home or business PV power plant
- Protection of the car paint and interior from sunlight damage
- Reduction of energy costs
- Energy self-sufficiency

## SUITABLE FOR:

- Customers with a demand for quality, price and variability
- Large company car parks
- Large public car parks
